

Guide to Islands Access and Fees

With 115 islands scattered across the Indian Ocean between 4° and 10° south of the Equator, Seychelles offers diverse and impressive sailing opportunities. While you are free to explore most of Seychelles' waters at will, there are some islands with certain access limitations.

The Seychelles Tourism Board (STB) has prepared this document as a convenient reference guide so that sailors can have all the requirements and particulars at their fingertips. It lists the islands of interest that are either in a Marine National Park area or a Nature Reserve, those that are privately or publicly owned, and those managed by the Island Development Company (IDC). It also lists the required formalities necessary for access, landing/entry fees, overnight mooring fees, and the contact details for the islands in question.

We hope that this information will aid you in having a hassle free sailing holiday in Seychelles.

While every effort is made to ensure the accuracy of the information contained in this document, STB takes no liability for any errors or omissions. The information is subject to change without notice and should be re-confirmed with the relevant authorities.
